SUPPLEMENTAL APPLICATION FOR CONTRACT GROWER LIABILITY AND NON-OWNED LIVESTOCK SUFFOCATION COVERAGE

INSURED/APPLICANT NAME:	POLICY NO.:
AGENT NO.:	GRINNELL MUTUAL MEMBER PROPERTY POLICY NO.:

COVERAGE – Select Coverage(s) for which you are applying.

☐ CONTRACT GROWER LIABILITY COVERAGE FOR CONFINED ANIMALS (GMRC/GMA 4308) (Must complete Section A under Confinement Building Information below.)
☐ NON-OWNED LIVESTOCK SUFFOCATION COVERAGE (GMRC/GMA 4309) <i>(Only available if GMRC/GMA 4308 is purchased.)</i> (Must complete Sections A <u>and</u> B under Confinement Building Information below.)

CONFINEMENT BUILDING INFORMATION – Provide the following information for EACH building.

SECTION A – THIS SECTION MUST COMPLETED FOR GMRC/GMA 4308 <u>OR</u> GMRC/GMA 4309 COVERAGE FORMS						SECTION B (GMRC/GMA 4309 Only)	
Loc. #	Bldg. #	Building Description <i>(Include dimensions & use, such as 'farrowing', 'finishing', etc.)</i>	Type of Animal	Total Building Capacity	Protection Level †		Special Limit <i>(Enter for each building covered under 4309)</i>
					F	P	

† Protection Level:

Fully Protected (F)	Building includes an automatic start auxiliary generating system and an approved alarm system
Partially Protected (P)	Building includes a manual or PTO auxiliary generating system and an approved alarm system

An approved alarm system means a system capable of monitoring power outage and temperature extremes. The system must be capable of contacting at least 3 people via an automatic dialer system continuously

DEDUCTIBLE

The deductible is \$5000 unless a different amount is indicated: ☐ \$1,000 ☐ \$2,500 ☐ \$10,000 ☐ \$25,000
NOTE: Under GMRC/GMA 4308, the deductible stated above applies to each occurrence. Under GMRC/GMA 4309, the deductible applies to each building.

ALARM INFORMATION

Loc #	Bldg #	Manufacturer	Model	Year Installed	TEMPERATURE EXTREME SENSORS		
					# of Rooms	Sq Ft/Room	# of Sensors per Room

ALARM SYSTEM QUESTIONS

	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#
Is the alarm UL listed?					
Does the alarm system have battery backup?					
Does the power failure monitor both "hot" legs of the electrical service entrance panel(s)?					
Is it installed by a licensed electrician?					
Is there a separate manual over-ride thermostat for each room per building controlled by an electronic controller?					
Does someone live at this location? If not, how far from the location does the nearest person notified by the alarm system live?					

GENERATOR QUESTIONS

	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#
Who is the manufacturer of the generator?					
What size (kw) is the generator?					
Is there at least one generator at this location?					
Is the generator: PTO Driven, Manual Start, Automatic Start?					
If a PTO generator is present, is a tractor permanently located at this location?					
Has the generator been installed by a Licensed Electrician in accordance with the National Electric Code?					
Has the generator transfer switch installation been inspected and approved for use by the local power company?					
Is the generator tested under load on a monthly basis with a log kept showing the date and time of operation.					

BUILDING QUESTIONS

	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#	___ Loc# ___ Bldg#
Is there a lightning surge arrestor installed on the main electrical service panel of the building?					
Are there at least two ventilation fans per building or room?					
Is each fan on a separate circuit?					

LOSS HISTORY – List prior losses, including date of loss; if livestock loss, include number of deaths.
